

S-board 840 Design USB

compact keyboard

 BAKKER ELKHUIZEN

Work Smart - Feel Good

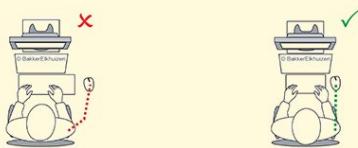

Lightweight, thin and compact

The S-board 840 is a compact ergonomic mini keyboard for use with laptop and desktop PCs.

This keyboard has conveniently placed navigation keys, an integrated numeric pad, a larger enter key, and two USB ports.

Research shows that 90% of keyboard users seldom, if ever, use the numeric pad. This section is removed for Compact keyboards meaning the mouse can be placed closer in. This results in greater comfort because it reduces the reaching distance to the mouse (Cook, C., et al., 1998). This puts less strain on the shoulder and forearm.
