

TabletRiser

ergonomic tablet holder

 BAKKER ELKHUIZEN

Work Smart - Feel Good

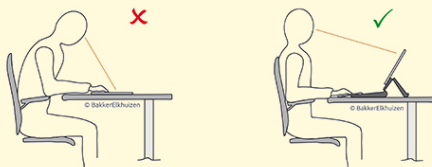

Universal, progressive and comfortable!

The innovative TabletRiser is a unique tablet stand that unfolds into an ergonomic workspace in one simple motion.

The risk of working behind a laptop or with a tablet is that we adopt a poor work posture, which can cause physical complaints.

Using a tablet results in more flexion of the neck than working with a laptop or desktop (Young, et al., 2012). Typing on a tablet takes much more time than typing on a keyboard (Chaparro, 2010).
