

The Egg Ergo Mouse Pad

Ergonomic mousepad

 BAKKER ELKHUIZEN

Work Smart - Feel Good

Never have a cold mouse hand again!

The Egg Ergo Mouse Pad is an ergonomic mouse pad with a unique egg-shaped design. This design is actually the natural mouse pattern of a computer user.

The mouse stays in place thanks to the rubber bottom of the mousepad. You can move the mouse fast and smoothly, and stay productive.

Tables are often cold and cause poor circulation in one's hand and wrist. Research has shown that a large insulated mouse pad prevents a cold "mouse hand" and therefore contributes to extra comfort (Eline M. Meijer - Coronel Institute of Occupational Health).
